10 Dear Sir:

This communication is in response to the Office Action on the above-identified case mailed November 27, 2006, requiring a restriction.

In the Restriction, the Examiner grouped the claims as follows:

- Group I    claims 1-10, 21    method and system for purchasing an opportunity of chance, classified in class 463, subclass 25
- Group II    claims 11-17    mobile appliance, classified in class 455, subclass 550.1
- Group III    claims 18-20    retail charging terminal, classified in class 902, subclass 8

15 Applicants provisionally elect the claims in Group I (claims 1-10 and 21), with traverse.

Applicant asserts that a search of the respective classes and subclasses would not be unduly burdensome given the interrelationship between the claimed subject matter in the respective groups, and that art found in one class/subclass is likely to be related to art found in the other class/subclass(es).

Respectfully submitted,

Mark Bergner (Reg. No. 45,877)
